Request Pre-certification via the Pre-certification form found at
<https://www.connectcare.com/for-providers> (including clinicals) to
ConnectCare via fax at 989-839-1679

COMMON SERVICES THAT DO NOT REQUIRE PRIOR AUTHORIZATION

- BRCA Genetic Testing (**Note: all other types of Genetic Testing require prior authorization**)
- Cardiac/EP procedures do not require pre-cert (Ex: cardiac cath, cardiac ablation, pacemakers) as long as they are *Outpatient*.
- DME rentals for home oxygen, nebulizers & bilirubin lights
- Imaging does not require pre-cert (**Exceptions: Cardiac CT and PET scans do require prior authorization**)
- IV infusions (chemo, immunology agents such as IVIG, Ocrevus, Remicade, Rituxan, etc.) given in infusion centers do not require pre-cert.
- Mental Health/Substance Abuse Intensive Outpatient (IOP) treatment (**Note: Residential and PHP treatment do require prior authorization**)
- Palliative Care
- Radiation therapy (**Exception: Gamma Knife does require prior authorization**)
- Sleep studies
- Wound Care Centers including debridement
- Outpatient procedures do not generally need pre-cert except those listed on the Pre-Cert Required List

Common Outpatient Procedures - Prior Auth is not required unless otherwise noted:

- Urology procedures (**use of Botox requires prior authorization**)
- Foot and ankle surgeries (**Dx of flat foot not covered**)
- Dermatology procedures, such as Mohs procedure for skin cancer
- All eye, knee and spinal injections
- All pain management procedures (**Dx of TMJ not covered**)
- All Outpatient IR procedures including angiograms, angioplasties, stents
